KPI Explanation

Total Employees

Total number of employees in the organization. This is the base for all calculations.

Attrition Count

Number of employees who have left the organization. Helps in measuring employee loss.

Active Employees

Employees who are currently active in the organization.

Average age

Average age of all employees. Helps in understanding workforce demographics.

Average Tenure

Average number of years employees have spent in the organization.

Avg monthly income

Average monthly income across all employees. Indicates overall compensation level.
